

Prayers For Thomas

Jean Druffner

Jean Druffner is a teacher with an M.S. in Outdoor Education who worked with fifth grade students in a rural mountain village for 32 years. She took her classes each year either deeper into the mountains or to the ocean for a week of special environmental studies. Due to the influence of Thomas Berry and Brian Swimme, after retirement she earned an M.A. in Philosophy and Religion with an emphasis in cosmology. Now she is becoming a story-teller who uses folk music in her presentations.

My prayers for a most transcendental individual who has been helping us all to gain a footage on the history of us.

I also pray for his dedication to enlighten us ongoingly by his writings and all of his life.

May we each
become a blessing
to all that is.
